

011 T bricks in a random bond various sizes

The above picture shows our slender 011 T bricks in a random bond using various sizes

500 mm L x 40 mm H x 90 mm D
300mm L x 40mm H x 90 mm D
200mm L x 40mm H x 90 mm D

If you are looking for a brick that will elevate the design and character of your architectural project, look no further than our handmade architectural bricks.

Architectural Handmade Bricks and Pavers (AHBP) have an "Exposure Grade" (EXP) rating

This means they are suitable for aggressive conditions such as high salt environments.

Our bricks are easy to clean and will not produce any manganese staining common in many architectural bricks.

All AHBP products are handmade and locally produced in Australia, with excellent availability.

Colours and blends can be viewed on our website.

Brick Tiles and Corner Pieces are also available in all our standard colours and blends

Please email us for samples, pictures or any other information.
