

Polished Stainless Steel Kitchen & Laundry Sinks

oliveri.com.au

Oliveri®

KITCHEN / BATHROOM / LAUNDRY

FROM HUMBLE BEGINNINGS,
WE'VE TAKEN OLIVERI TO THE WORLD.

Featured products:
Monet sink (MO70U) and Essente square goose neck pull out mixer (SS2575)

We've come a long way from an unassuming suburban factory where our business began way back in 1947. It was at Watkins and Starr, now Oliveri Solutions, a modest domestic metal fabricator in Adelaide, South Australia, that a highly skilled and dedicated team pioneered the deep drawing process in Australia.

It was the beginning of something extraordinary. Today, Oliveri is Australia's only commercial pressed bowl sink manufacturer and one of this country's best home grown success stories.

Australian made. Global success.

Our design expertise and commitment to quality continue. We now import and distribute a wide range of taps, sinks and water filter systems across nine countries, including Australia, New Zealand, and the USA.

The vast range and superior design of our sinks and taps are enjoyed by homeowners around the world and the Oliveri name continues to be synonymous with style, quality, and home grown success.

Did you know?

Our founders decided on the name 'Oliveri' in a local Adelaide restaurant, by voting on names written on napkins. The accent in Oliveri is the tick that sealed the deal!

Oliveri[®]

Features /

Proudly Aussie made

The Nu-Petite is one of the many ranges of stainless steel sinks that we produce out of our factory in Adelaide.

Yours for life

This unique sink comes with a lifetime manufacturer's warranty* for your peace of mind.

LOVE YOUR LAUNDRY

No more wash day blues. Choose the right sink and tap for your laundry /

The Sink

In addition to our traditional, purpose-built laundry tubs, other sinks may be considered suitable for use in the laundry. Look for a single deep bowl for soaking clothes or filling buckets. If space is limited, go for a standard single bowl kitchen sink.

Colour

Brighten up your laundry with some colour. This can be done with one of our copper Spectra or black Santorini sinks or maybe with a black or white Vilo mixer tap.

Bench depth

Make sure your bench is deep enough for your sink. 600mm is the standard depth of a kitchen bench; however this is often not enough for a big laundry tub. Laundry sinks are generally bigger than kitchen sinks, and you'll have hoses tucked in behind your washing machine. We recommend a minimum 650mm deep benchtop in the laundry.

Cabinet width

You'll also need to consider the size of your cabinets, as laundry sinks are normally larger than kitchen sinks. A large laundry tub may require even more space, for example the Oliveri TI70 laundry tub needs a minimum cabinet width of 700mm.

Pull-out and spray mixer taps

A mixer tap with a pull out spray provides a little extra reach and makes for easy cleaning of the sink or washing clothes and is super handy when filling the mop bucket.

Overflow option

Overflow and Bypass plumbing

The Oliveri Laundry range is available with an overflow and bypass plumbing option. An overflow can safeguard against accidental overfilling, while the bypass plumbing will allow washing machine grey water to enter the drain even while the tub is in use.

Bypass plumbing
