Practical function – versatile in application

Opening up a wealth of design options, AMBIA-LINE offers a completely new solution for organising drawer and pull-out interiors. AMBIA-LINE frames can be used in any configuration providing practical and functional organisation throughout the home.

blum

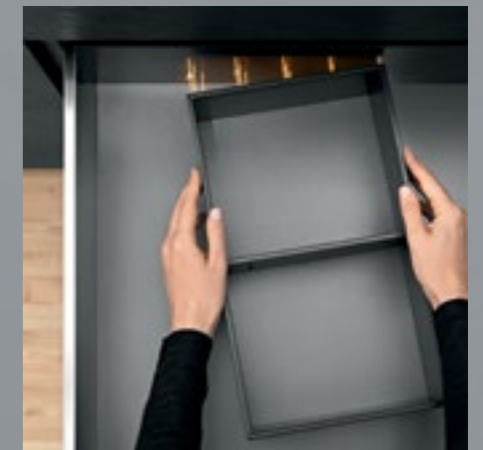

Perfect organisation

AMBIA-LINE creates order within LEGRABOX with simple elegance.

Individual adjustment

The flexible cross dividers can be easily adjusted to fit the size of the goods being stored.

Easy utilisation

The frames can be positioned anywhere in the drawer. A magnetic fixing and non-slip feet provide a secure hold.

Practical kitchens

Well designed products like AMBIA-LINE bring high levels of functionality to every kitchen. AMBIA-LINE is a simple way of creating and enabling fluid work processes.

Simple workflows

LEGRABOX drawers and pull-outs are fully extendable providing a complete overview and easy access. AMBIA-LINE dividers guarantee order and organisation of all stored items such as cooking utensils, bottles and provisions.

Space optimisation

Maximise the use of available space by planning kitchens with wide, high and deep pull-outs. The straight and slim profile of LEGRABOX allows for complete use of the interior. With AMBIA-LINE space can be organised to suit the items being stored.

Blum's ideas for practical kitchens

A kitchen has to be fit for everyday use. That's why Blum has been researching the requirements of kitchen users for years. In this way, new ideas for making modern kitchens even more practical are constantly being generated as part of DYNAMIC SPACE. More information can be found at www.blum.com

Top quality motion

With low opening forces, incredibly smooth running action and integrated BLUMOTION soft-close LEGRABOX increases comfort in the kitchen. Combine with SERVO-DRIVE electrical motion support for superior quality of motion and enhanced user convenience.

Ideas for your kitchen

blum

AMBIA-LINE for cutlery

- Store cutlery without making a sound in cutlery inserts with Softtouch coating.
- Cutlery inserts and frames can be combined as required.

blum

Steel design
Terra black matt*

* Application idea only. For full order specification requirements refer to page 35.

**AMBIA-LINE for kitchen utensils
and AMBIA-LINE foil/film dispenser**

- Whisks, vegetable peelers and ladles are stored in an organised fashion to ensure that everything is in its place.
- The AMBIA-LINE foil/film, dispenser allows foil and film to be pulled out without creases and cut cleanly.

Steel design
Orion grey matt*

AMBIA-LINE for cutlery

- The cutlery insert provides proper organisation for cutlery.
- The high quality materials can be cleaned easily with a damp cloth.

Steel design
Terra black matt*

AMBIA-LINE for odds and ends

- Odds and ends are organised and can be easily accessed.
- Items used less frequently also have their own place and are ready to be used when needed.

Steel design
Terra black matt*

AMBIA-LINE knife holder

- Up to nine knives are kept safely and in a well organised manner in the knife holder.
- High quality plastic and anti-fingerprint stainless steel keep the blades in good condition.

Steel design
Terra black matt*

* Application idea only. For full order specification requirements refer to pages 35 to 36, 40.

AMBIA-LINE plate holder

- Up to 12 plates are stacked securely in the pull-out and can be moved comfortably, to the dining table for example.
- The plate holder is conveniently variable in its adjustment to different plate sizes.

Steel design
Orion grey matt*

* Application idea only. For full order specification requirements refer to page 40.

AMBIA-LINE for provisions

- Large tins or small packets can be stored neatly in the SPACE TOWER pantry solution.
- Open packets such as flour, sugar or rice are also held securely in the non-slip AMBIA-LINE frames.

Steel design
Terra black matt*

AMBIA-LINE for plastic containers

- Instead of chaos, it is order and organisation that reign in the pull-out.
- The lids for every plastic container can be found without a long search.

Steel design
Silk white matt*

AMBIA-LINE for cleaning utensils

- The sink pull-out uses the space under the sink that is often wasted and can be optimally organised.
- Detergents, sponges and brushes can therefore be stored where they are needed.

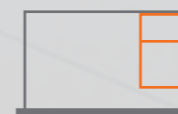

Steel design
Terra black matt*

AMBIA-LINE for waste separation

- Cleaning products are stored neatly, securely and separately from the rubbish/recycling containers in the pull-out.
- The flexible cross divider can be adjusted to suit different bottle sizes.

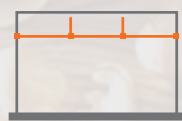

Steel design
Terra black matt*

* Application idea only. For full order specification requirements refer to pages 37 to 38.

AMBIA-LINE for pots and lids

- Cooking items are stored practically in the pull-out under the cooktop.
- The cross gallery allows lids to be stored at an angle and within easy reach.

Steel design
Orion grey matt*

AMBIA-LINE for cooking utensils

- Wooden spoons, spatulas and whisks are ready to be used immediately.
- The cross dividers can be adjusted according to the length of the utensils.

Steel design
Terra black matt*

AMBIA-LINE for bottles and cutting boards

- Bottles are stored securely and are within easy reach.
- Wider pull-outs offer additional space, e.g. for cutting boards.

Steel design
Terra black matt*

AMBIA-LINE spice holder

- Spice jars and packets in various sizes can easily be fitted in.
- The angled position of the spices means the labels are easy to read.

Steel design
Silk white matt*

* Application idea only. For full order specification requirements refer to pages 35 to 40.

Ideas for your bathroom

blum

AMBIA-LINE for bathroom accessories

- Perfect order transforms your bathroom into a relaxing oasis.
- The frames, made of durable materials, are resistant to high humidity.

Steel design
Orion grey matt*

* Application idea only. For full order specification requirements refer to pages 37 to 38.

AMBIA-LINE for toiletries

- Hand towels, lotions and bottles are arranged neatly.
- The frames can be cleaned easily with a damp cloth.

Steel design
Silk white matt*

* Application idea only. For full order specification requirements refer to pages 37 to 38.

Ideas for your wardrobe

blum

AMBIA-LINE for work outfits

- Shirts and ties can be organised accordingly.
- The clear view means that everything can be found quickly and everything has its place.

Steel design
Terra black matt*

* Application idea only. For full order specification requirements refer to pages 37 to 38.

AMBIA-LINE for baby essentials

- Nappies, towels and powder are close to hand and your baby remains safely in view.
- Perfect order means easy and fast access.

Steel design
Silk white matt*

AMBIA-LINE for wardrobes

- Everything has its place and can be tidied up quickly.
- Cross dividers adapt to every storage requirement.

Steel design
Silk white matt*

AMBIA-LINE for wardrobes

- Football shirts, socks and goalie gloves – each frame creates a special place for your belongings.
- This clear organisation allows you to pack your sports bag in record time.

Steel design
Orion grey matt*

* Application idea only. For full order specification requirements refer to pages 37 to 38.

Ideas for your living room

blum

AMBIA-LINE for ornaments

- Frames provide space for vases and candle holders of different shapes and sizes.
- Stylish storage allows you to have a place for everything.

Steel design
Terra black matt*

* Application idea only. For full order specification requirements refer to pages 37 to 38.

AMBIA-LINE for sewing accessories

- Freely movable frames turn the pull-out into a creative sewing box.
- Organisation is a common theme in the drawer.

Steel design
Silk white matt*

AMBIA-LINE for special items

- Frames provide space for glassware of different shapes and sizes.
- Delicate and fragile objects are kept safe.

Steel design
Terra black matt*

AMBIA-LINE for office needs

- Perfect order helps you maintain concentration whilst working.
- Everything you need is always to hand.

Steel design

Assembly – Steel design

Blum

Founded over 60 years ago by Julius Blum, today Blum is an internationally active family-owned company. Blum is trusted and renowned worldwide for designing a comprehensive range of high quality industry leading products that significantly enhance user convenience and ergonomics in the kitchen and throughout the home. That's why we make every effort to perfect the motion of our lift, hinge, box and runner systems.

Design is more than an attractive appearance

Form, function and the focus on perfecting motion are and have always been firmly interlinked at Blum. This means that Blum products turn the use of high-quality furniture into a true experience and offer the ideal fitting solution for every home. Blum incorporates current design trends, personal preferences and functional furniture use. Blum fittings are internationally recognised for their sophisticated design and functional excellence.

Quality for the lifetime of the furniture

For over 60 years, quality has been the highest principle for the development and manufacture of Blum products. Our fittings exemplify quality with their well-thought-out function and durability, engineered to provide problem free use for the lifetime of the furniture. We achieve this by using the strictest internal guidelines and rigorous testing that form the basis of our ISO9001 Quality Management System.

Innovation for high living comfort

We want our fitting solutions to be innovative and make everyday kitchen use easier. That's why our developments are based on findings from requirements research and input from our customers. Blum is one of the largest patent applicants in Austria and has more than 1,000 registered trademarks. CLIP, tool free assembly, TANDEM technology, MOVENTO technology, soft-close BLUMOTION and SERVO-DRIVE electrical motion support system are all innovations by Blum and milestones in the furniture manufacturing industry.

Our contribution to the environment

Blum strives to minimise its environmental impact with environmental protection being an integral part of everything we do. We use environmentally friendly processes, use raw materials intelligently and save energy wherever we can. Our commitment to environmental protection is internationally recognised and rewarded. We endeavour to maintain and are always looking to improve our environmental management systems.
