

Create a better quality of
living with Blum

Cabinet Solutions

 **blum**[®]

Pantry Items

Tips

A Blum SPACE TOWER pantry solution can be designed to fit cabinet widths from 300mm to 1200mm wide.

Drawers can be fully extended providing complete vision and access to the contents. The addition of drawers instead of shelves in a pantry, reduces the risk of out of date food being forgotten about at the back of the shelf.

What to share with your kitchen designer :

- * Blum SPACE TOWER pantry.
- * Blum's LEGRABOX pure drawer design is available in a number of options. Orion Grey Matt (as shown), Silk White Matt, Terra Black Matt and Anti-fingerprint Stainless Steel.
- * Blum AMBIA-LINE drawer organisation.
- * LEGRABOX can support cabinets up to 600mm deep, with various inner pull-out drawer fronts of high glass (as shown and recommended on bottom two drawers to support taller bottles), half glass (as shown) or a gallery rail (no glass).

Ask for the latest Blum CLIP top BLUMOTION 155 degree hinge technology for your pantry door. This provides integrated BLUMOTION soft-close and an opening angle that allows the pantry door to open out of the way for comfortable access to your pantry drawers.

Tips

Having an oils and spices drawer near your cooktop where you use these items the most extends your pantry space options.

What to share with your kitchen designer :

- * Ask for a Blum LEGRABOX oils and spices cabinet solution.
- * The ideal width for an oils and spices storage cabinet is between 350mm to 600mm, however you can go up to 1400mm wide if desired.
- * The bottle drawer can be fitted with a Blum AMBIA-LINE bottle drawer frame that will keep your bottles in position when opening and closing your drawers.
- * Blum's LEGRABOX pure drawer design is available in a number of options. Orion Grey Matt (as shown), Silk White Matt (as shown), Terra Black Matt and Anti-fingerprint Stainless Steel (as shown).
- * To accommodate the inclusion of the Spice insert or bottle frames into your LEGRABOX drawers, they need to be a LEGRABOX height (C) or LEGRABOX height (F) as a minimum.

Pantry Items

Thinking about what you need to store at the planning stage helps avoid not having the right space in your drawers once the kitchen is installed.

Spice Drawer

Narrow Cabinet

Bottle Drawer

Pantry Items

Tips

Use every inch of space when you do not have a lot to play with.

The corner cabinet doesn't have to be for long lost pots and crockery that doesn't get used.

A SPACE CORNER from Blum can turn a large, under-used space into a functional everyday pantry.

What to share with your kitchen designer :

- * Ask for Blum TANDEMBOX intivo or TANDEMBOX antaro drawer design systems. (Not available in LEGRABOX)
- * Best suited runners are Nominal length 650mm for maximum storage depth. However your kitchen specialist will guide you as to what will be possible.
- * The recommended corner cabinet dimension is 1000mm x 1000mm. This will ensure that there is ample storage space in each pull-out.

Space Corner

Cleaning & Waste Disposal

What to share with your kitchen designer :

- * Ask your kitchen designer for a Blum LEGRABOX under sink drawer. A Blum under sink drawer with LEGRABOX can be included into your kitchen design any width between 700mm to 1400mm depending on your sink bowl design. A separate drawer below can become a place to sort your different kinds of waste materials as well as a place for bin liners and cleaning materials.
- * The bottom drawer should be designed with LEGRABOX 70kg runners, so you can store waste as you need. A LEGRABOX inner drawer will ensure that every inch of space is optimised.
- * AMBIA-LINE organisation should be considered to assist in the arrangement of the drawer.
- * Blum does not sell the bin inserts as displayed. Visit blum.com/distributors and blum.com/resellers to see a range of Blum hardware suppliers who can assist in a range of bin inserts designed for Blum drawers.

Tips

The cabinet under your sink can become an epicentre of functionality when you add a cleaning and waste disposal cabinet where you are most likely to use it.

The addition of an inner drawer above the main pull-out, makes use of the entire space within the cabinet and comes in handy for all those extra things that need a place to be stored in your kitchen, like bin liners.

Tips

Ensure you ask for the highest rated weight for your drawer hardware. Blum LEGRABOX is rated to 70kg.

What to share with your kitchen designer :

- * Explore the possibility of adding a bank of drawers directly under your cooktop. Obviously, the appliances you choose will have a big impact on what is possible and your kitchen designer will know what will work best.
- * Blum LEGRABOX deep drawer options allow for great pots and pans storage with the inclusion of a gallery rail to separate lids.
- * If you have wall ovens, ask your designer if they can include a Blum AVENTOS overhead cabinet lift system instead of an open space or door. A lift system can lift up and out of the way of your working space.

Pots & Pans

The addition of a Gallery Cross Divider will provide a separate space in your drawer for lid storage, making life a little easier.

Cutlery & Plate Storage

Tips

Positioning plates and cutlery near your dishwasher makes for an easy unload.

Having all your serving items in one cabinet reduces having to walk around the kitchen to set the table or unload the dishwasher.

An extra wide cutlery drawer is a luxury when you consider the organisation options available with Blum AMBIA-LINE.

What to share with your  kitchen designer:

- * Discuss the width of the cabinet and the number of items you have to store. Some people have a lot of cutlery and others may not need something as wide.
- * The Blum LEGRABOX with AMBIA-LINE cabinet configuration can really be tailored to your personal storage needs. Blum organisation in this cabinet can include:
 - Blum AMBIA-LINE Plate holders
 - Blum AMBIA-LINE Knife holder
 - Blum AMBIA-LINE Drawer frames
 - Blum AMBIA-LINE foil and film dispensers
- * Make sure you let your designer know if you want these included, as the drawer design and height will need to be designed to facilitate these.

Tips

Blum's AVENTOS lift systems have a range of applications to suit a range of kitchen structure design requirements. AVENTOS lift systems from Blum ensure doors lift up and out of the way of your work spaces.

Ask about the addition of Blum SERVO-DRIVE to your AVENTOS lift systems, it really makes a big difference to opening and closing your overhead cabinets, as closing the overhead lift system can be achieved with a touch of a button.

*What to share with your
kitchen designer :* 

- * Ask for Blum AVENTOS Lift Systems for your overhead cabinetry.
- * You may want to ask to enclose the area above the fridge or wall oven to include a lift system, to make use of every inch of space. AVENTOS HK top is a great option for this.

Glassware, Coffee & Tea Cups Storage
