

Berg 04 T Blended Brick

**Above is our Berg 04 T Blended Brick in
400 mm x 40 mm x 110 mm.**

Our long, slender bricks in this beautiful warm blend of ochers and charcoal, results in a soothing & deeply satisfying aesthetic that effortlessly harmonizes with a variety of other materials and textures - elevating any design.

Architectural Handmade Bricks and Pavers (AHBP) have an "Exposure Grade" (EXP) rating.

This means they are suitable for aggressive conditions such as high salt environments.

Our bricks are easy to clean and will not produce any manganese staining common in many architectural bricks.

All AHBP products are handmade and locally produced in Australia, with excellent availability.

Colours and blends can be viewed on our website.

Brick Tiles and Corner Pieces are also available in all our standard colours and blends

Please email us for samples, pictures or any other information.
