

LET'S BUILD A MORE
BEAUTIFUL FUTURE.

Wildwood composite cladding, Sahara Collection in Sumac.

The Future is Fiberon

DREAM IT. WE'LL HELP YOU DO IT.

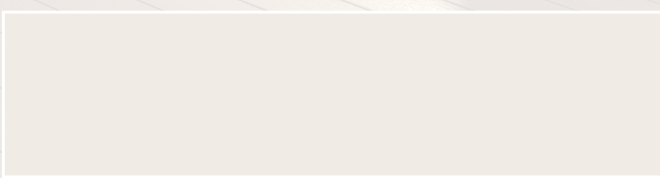

WILDWOOD.

**THE BEAUTY
OF WOOD MEETS
ADVANCED
COMPOSITE
TECHNOLOGY.**

Bring your designs to life—
all while protecting the planet.

- Offers a long-lasting, maintenance-free, sustainable alternative to traditional wood cladding.
- Available in a variety of board lengths and widths for more design solutions. Longer lengths result in fewer seams and an open-joint profile that utilizes a concealed face fastener creates a cleaner aesthetic.
- Mix and match board lengths and colors, or use horizontal and vertical configurations to create a unique, custom look for each project.
- Priced competitively to wood and costs less than most rainforest wood cladding or engineered cladding products.
- The durable composite core ensures exceptional resistance to rotting, cracking, insects and decay.

**50
YEAR**
WARRANTY
Stain, Fade and
Performance
Limited

Backed by a 50-year warranty
covering stain, fade and
performance.
