FLINDERS

ABOUT

We stand at the intersection of landscape and architecture, our work is founded in balance — between people and place — enhancing the Australian built environment through quality, design detail and durability that surpasses time and trends.

AUSTRALIAN MANUFACTURING

Quatro Design is synonymous with quality. To achieve consistent high quality and durability, our products are manufactured using modern and specialized GRC equipment.

The manufacture of GRC production requires a high degree of hands-on specialized labour coupled with close attention to detail.

Many of our employees are long standing and valued members of our team who understand GRC production and what is required to deliver consistent quality. These highly valued personal skills coupled with modern specialised GRC equipment is an important part of our manufacturing philosophy.

Each piece is checked during the manufacturing process to ensure compliance with our strict standards and to ensure that our products deliver on customer expectations.

We believe in the value of hand finishing all our products, with attention to detail that has been acquired over years of manufacturing and in supporting the development of our team.

We're proud of the support that we are able to give our local community and the role that we continue to play in enhancing the Australian built environment.

FLINDERS

Named after its design inspiration and first installation — the Flinders Street Cultural Precinct redevelopment in Townsville, this GRC range will compliment any contemporary urban design project.

This collection offers an array of seating options that can be individual or linked elements. Recessed timber accents are also available for added interest and contrast.

(Note that all benches with returns are manufactured as shown, and cannot be rotated to face the opposite direction.)

Visit quatrodesign.com.au for more information on our colour options, accessories, product specifications and drawings.

Alexander Lotersztain

DESIGNER: ALEXANDER LOTERSZTAIN

Alexander Lotersztain is an Argentinian born Australian designer and founder of the multi-disciplinary design studio Derlot. This highly awarded studio specialises in product furniture and interior design, as well as hotel concepts, branding and art direction with a long list of international clients.

His work appears in design journals around the world and can be found in the collection of Pompidou Museum in Paris. He is highly awarded in both product and interior design and in 2010 he was bestowed the inaugural Queensland Premier's Smart State Designer of the Year fellowship award.

He was named one of the 100 most influential designers worldwide in &fork by Phaidon and is among the top 25 designers to collaborate with Monocle.

Alexander is a design advisor to a number of private and government projects. He regularly presents at conferences such as TEDx and often participates on design judging panels, both in Australia and abroad. He has also appeared on Australian television, as a mentor to contestants of The Renovators.
