Who we are.

---

## Helpful, credible experts.

Whether it's finding the perfect board color, designing a deck layout or providing tips on selecting a contractor, Fiberon is here to help. We offer straightforward information and honest advice so you can make the best decisions for your unique space.

## Local roots, global reach.

Fiberon® products are made in the United States, both in our home state of North Carolina and in Idaho. From these two locations, we distribute throughout North America and to more than two dozen countries in Europe, Asia, Africa, Australia, and Central and South America.

Beautiful outdoor living built for life.®

# Why we do it.

## Longer lifespan, lower cost of ownership.

From replacing splintered boards to reapplying stain or paint, the average pressure-treated deck needs a lot of maintenance. Those supplies can add up to hundreds of dollars each year, not to mention the time spent refinishing and repairing old boards. A Fiberon® composite deck? Less than \$50 in annual maintenance costs and a high-end look that lasts. Plus, our products are backed by industry-leading warranties

## Safe for your family, safe for the environment.

Our composites are manufactured using sustainable processes and are free of toxic chemicals. And, unlike wood, they prevent further deforestation. Fiberon Balance is our program that outlines our sustainable manufacturing processes and eco-friendly initiatives.
