JUNE 2024

Verona

Soft and subtle,
lead-free bathroom
tapware.

Lead  FREE

Verona

Basin and Tower Basin Mixers, Wall Mixers and a Wall Spout.

The Verona range is a full new bathroom offer with smooth, soft styling made from lead-free brass. A curved uplifted paddle lever adds elegance to a classic design. Boasting a 5-star WELS rating, the Verona range is water efficient and comes in an extended colour range - now including white (satin).

The Future of Wall Mixers is here.

The Verona range includes our first wall mixer designs to feature an inwall unibody with interchangeable trim kits. This product innovation allows for trim colour changes without the need to replace inwall fixtures. Keep reading for more information on Verona Wall Mixers.

Features

- Lead free
- 5 Star WELS water rating
- Six finishes to choose from - now including White (satin)
- 15 year warranty*

Oliveri

Flexible, unibody wall mixer designs.

With Oliveri's unibody wall mixer designs, you can switch the trim colour of Verona wall mixers AFTER installation.

Practical and flexible design

Verona wall mixers are designed to make life easier - for builders and their clients - through unibody rough-in kits and interchangeable trim colours.

How it works

- 1 Builders install Verona inwall mixer bodies without needing a final trim colour choice commitment.
- 2 Verona wall mixer trim kits are available separately and installed once the trim colour is chosen.
- 3 Verona mixer colours can be changed at any time by fitting a new trim kit colour, without replacing the inwall body and without specialist tools or equipment.

Features

- Lead Free
- Rough-in unibody design
- Interchangeable trim kits
- Six trim colours to choose from.

Purchasing Flexibility

Verona wall mixer rough-in body and trim kits are sold separately or can be purchased as a single combined sku. See Oliveri website for details.
