

TAP INTO THE FUTURE

Japan's best selling
built-in filtration sink mixer,
now available in Australia.

Taqua

5 LAYER FILTER REMOVES MULTIPLE SUBSTANCES

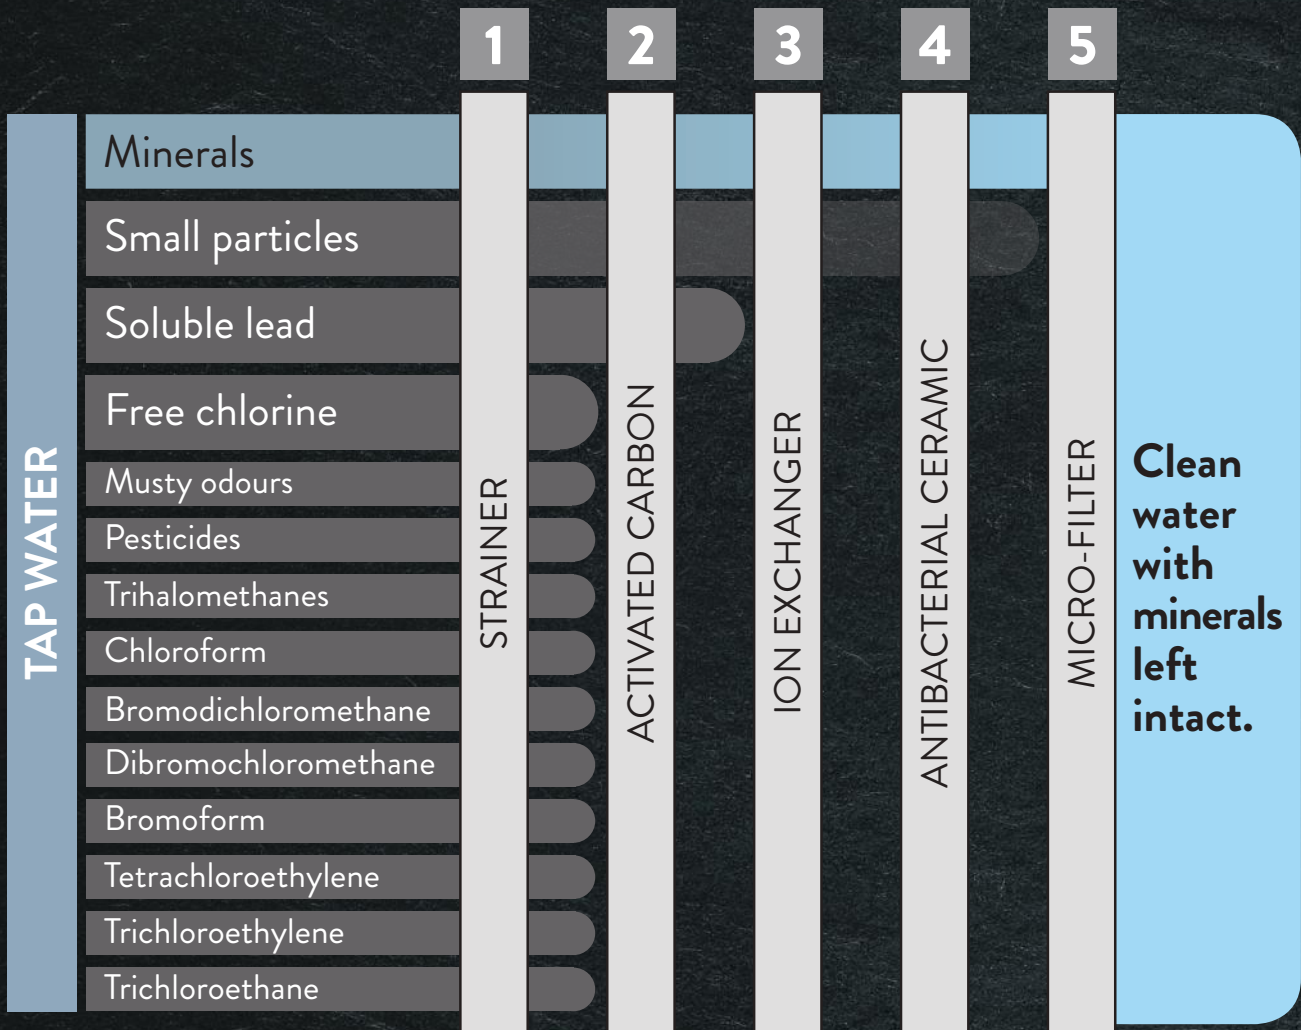

ON ↔ OFF

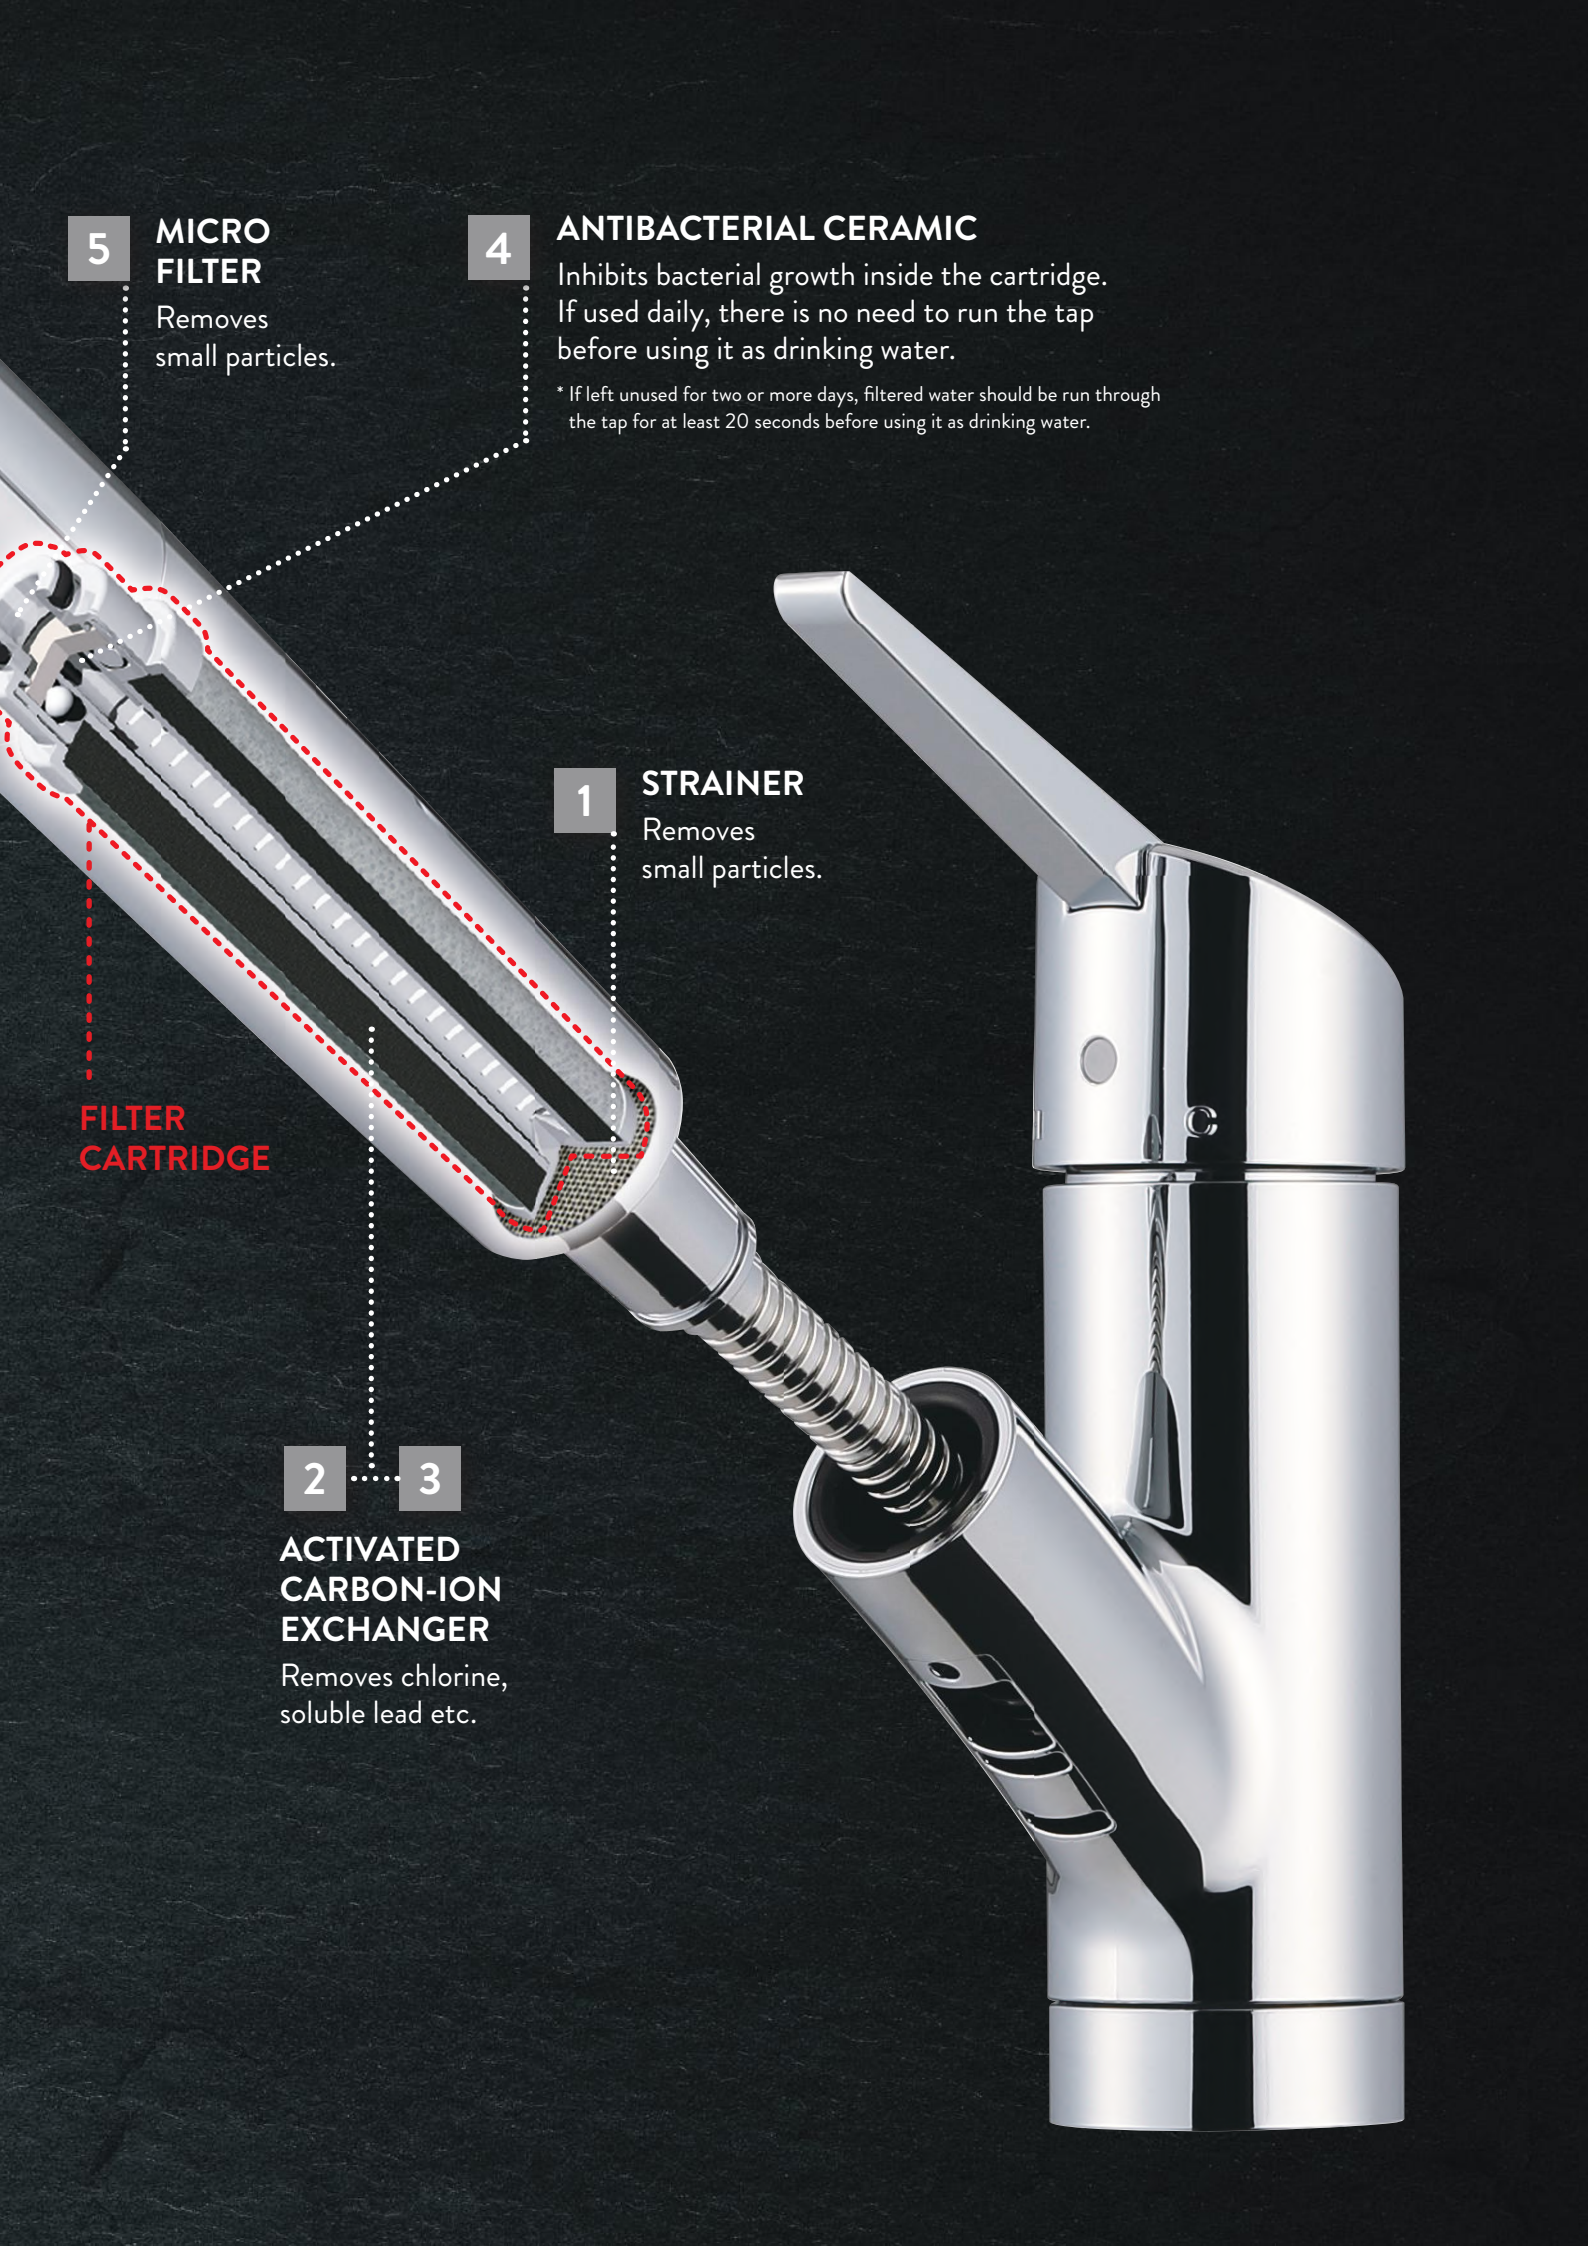

With just one touch, choose between tap water or filtered water.

HOW IT WORKS

Different substances are filtered depending on the cartridge type used.

5

MICRO FILTER

Removes small particles.

4

ANTIBACTERIAL CERAMIC

Inhibits bacterial growth inside the cartridge. If used daily, there is no need to run the tap before using it as drinking water.

* If left unused for two or more days, filtered water should be run through the tap for at least 20 seconds before using it as drinking water.

1

STRAINER

Removes small particles.

FILTER CARTRIDGE

2

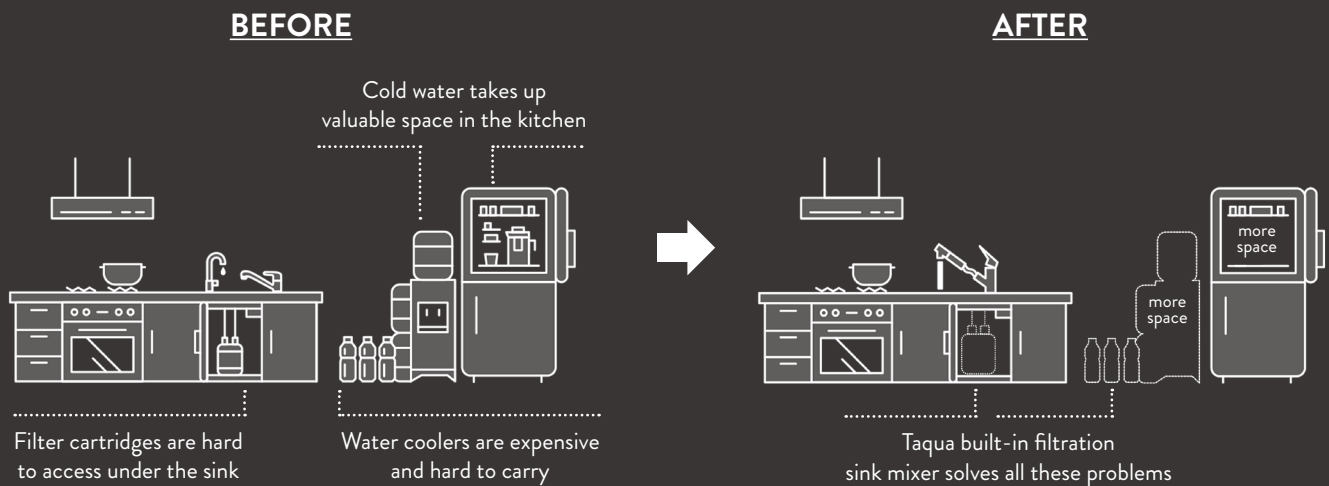

3

ACTIVATED CARBON-ION EXCHANGER

Removes chlorine, soluble lead etc.

SMART

- Australia's 1st filtration system that sits inside the tap. No tanks, water bottles or other bulky equipment, so you can save space in the kitchen.
- The system filters 4 litres of water every minute so you don't have to wait long.

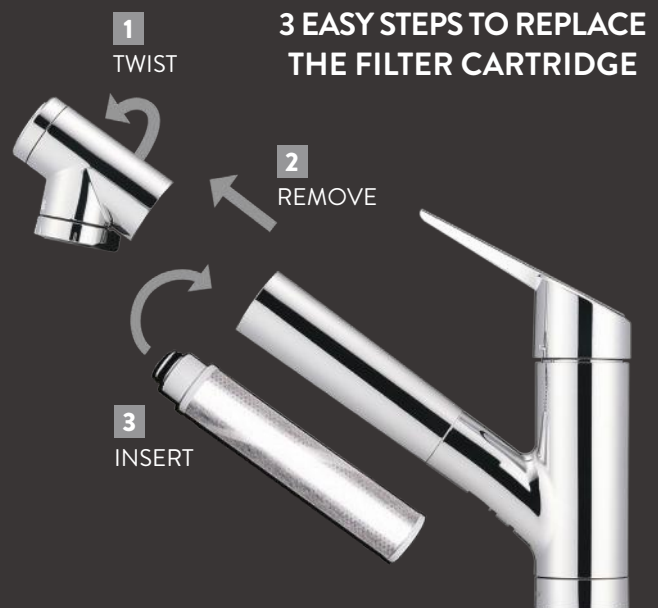

SIMPLE

- Subscribe online to automate delivery for replacement cartridges. We recommend replacing cartridges every 3-4 months in order to maintain the effects of the Taqua filtration system.

- It only takes 10 seconds to change the cartridge with 3 easy steps. No need to hire or play the plumber.
- Only 1 push of the button to change tap water into filtered water.

SAVE

- Promotes eco-friendly drinking habits.
- Helps you save money by not having to purchase bottled water.

T-1

A built-in filtration sink mixer equipped with a functional water-saving feature, the “eco-shower”.

Large, easy-to-see colour display window

Simply press the button on the front of the tap to switch between filtered water and tap water. The ON/OFF indicator lets you know whether filtered or tap water is flowing out.

Tap water

Filtered water

“Eco-shower” mode allows you to save around 20% more water.

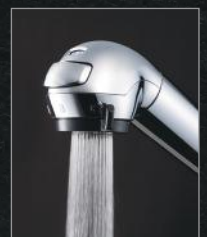

In addition to the “normal” and “shower” flow options, an “eco-shower” flow option has also been added which can be easily activated with the turn of the dial.
