

Enjoy pure  
filtered water,  
direct from  
your tap

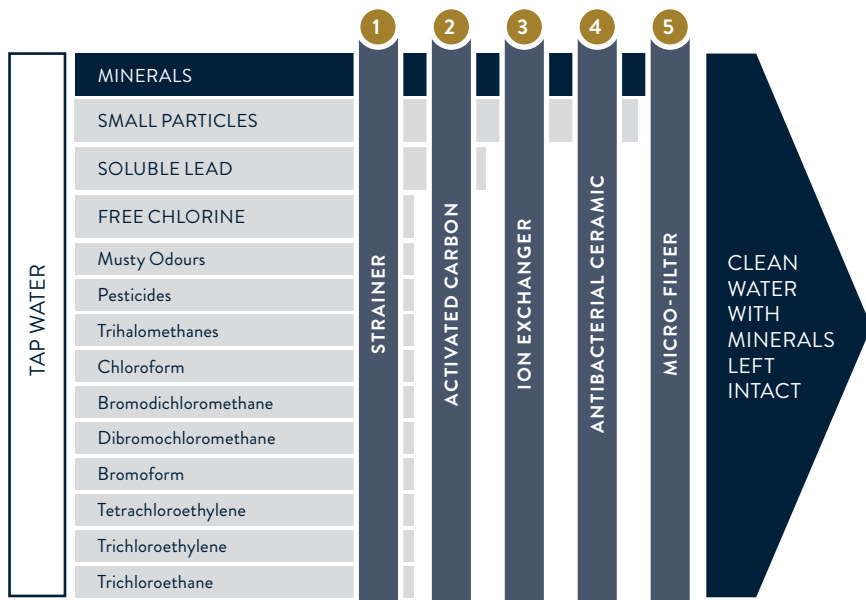

# Tap into the future today

Taqua's built-in filtration sink mixer provides safe, clean and delicious filtered water directly from the tap. With just one touch, you can choose between filtered water to drink or wash fruit and vegetables, then click again for regular tap water to wash up. It's Japan's #1 water filter and is precision-made in Japan to the highest standards. Now in Australia, Taqua is being increasingly chosen for its great tasting water and its convenience too.

## HOW TAQUA WORKS

*Note: Premium cartridge filtering shown. Different substances are filtered depending on the cartridge type used.*

# Our in-tap filter provides you with safe, clean water

On/Off – with just one touch, choose from filtered or tap water.

Micro-filter and in-built strainer remove small particles.

Anti-bacterial ceramic construction inhibits growth inside the cartridge.

Activated carbon-ion exchanger for soluble lead, chlorine and more.

## TAQUA IS MAKING A DIFFERENCE IN THE HOME

*“When you’ve got young kids, you want to give them the cleanest water possible. The built-in water filter tap doesn’t take up any extra space in the kitchen, and replacing the cartridge is so easy.”*  
- Melinda (39)

*“Everyone knows filtered water tastes better than normal tap water, but you can actually taste the difference in cooking as well. I also love that we could take it with us and keep using it after we moved to a new house.”*  
- Tim (46)

### NICHOLAS GURNEY INTERIOR DESIGNER / ARCHITECT

*“I enjoy the Japanese precision evident in Taqua products. A client’s decision is not based on material finish or styling, it’s function-driven and clients are pleased to know they have installed a Japanese best-seller in their home. The outstanding piece of ingenuity has been combining tap and filtration in a single unit, and importantly, doing so in a manner that is neatly concealed.”*

# Choose the cartridge you want to filter your water

Taqua's filter cartridges are precision-made in Japan to the highest standards. They are designed to significantly reduce lead, chlorine, small particles, pesticides, carbon taint and nasty odours.

## STANDARD FILTER

<b>Substances filtered</b>	4 ( <i>chlorine, pesticides, lead, musty odours</i> )
<b>Filtration flow rate</b>	4 Litres / minute
<b>Total filtration capacity</b>	1,200 Litres
<b>Cost per cartridge</b>	\$40 + GST (includes postage from Japan)

## PREMIUM FILTER

<b>Substances filtered</b>	12 ( <i>Standard, plus industrial solvents and organic compounds</i> )
<b>Filtration flow rate</b>	3 Litres / minute
<b>Total filtration capacity</b>	1,200 Litres
<b>Cost per cartridge</b>	\$45 + GST (includes postage from Japan)

# Why you'll love having a Taqua at your place

You can switch from filtered water to tap water with just a push of a button.

Filter provides the healthiest water for children's developing immune systems.

Easy food-prep and cleaning with the handy spray nozzle and extendable hose.

Sophisticated, minimalist design fits seamlessly into any modern kitchen.

Save space in the kitchen – no need for bulky tanks or underneath sink filters.

**FREE**

## UPGRADE TO A 5-YEAR EXTENDED WARRANTY

Once you have purchased, you can extend Taqua's standard two year warranty to five years at no cost, by simply registering your details on the Taqua website: [www.taqua.com.au](http://www.taqua.com.au)

# Fit a cartridge in under 10 seconds

It's easy to do – no need to hire a handyman or pay a plumber. Simply twist the end of the tap to the left, remove the top nozzle, then take out the old cartridge and replace with a new one.

To watch a video about Taqua and changing the filter, go to: <http://bit.ly/Taqua-filter-video>

## ENSURE YOU ENJOY FILTERED WATER ALL THE TIME

We recommend replacing Taqua water filter cartridges every 3-4 months in order to maintain optimal effectiveness of the filtration system. You can also register online to automate delivery of replacement cartridges to your place, so you don't have to try and remember when the next one is due.
