ALUMINIUM

polytec's clean-lined **ALUMINIUM** framed doors, comprising two unique ranges, fulfils demand for well-resolved cabinetry solutions suited to indoor kitchens and the growing trend of having a fully equipped, outdoor kitchen counterpart.

Designed for indoor kitchen application, **ALUMINIUM** doors are available in five frame widths and a choice of profiles - slimline, wide or shadow. Further customisation is possible for a more or less translucent or reflective effect, via an array of glass inserts which include - Frosted, Starphire White, Mirror or Clear.

ALFRESCO door range, the latest addition to polytec's **ALUMINIUM** framed doors, has been cleverly conceived for built-in, outdoor kitchen cabinetry situated in undercover areas such as: verandas, decks, terraces, alfresco spaces and patios. Whether the outdoor kitchen is an extension to the main cooking hub or an additional self-contained culinary centre in its own right, polytec's **ALFRESCO** door range introduces an avant-garde concept to the market.

Built to withstand the elements, the **ALFRESCO** door range is constructed from aluminium and features a **COMPACT** laminate insert that's waterproof, resistant to impact and offered in an elegant and understated palette of earthy colours.

For perfect harmony, both door ranges are available in Brushed Stainless finish, consistent in colour to stainless steel appliances, or pared back Satin Aluminium. The products are exceedingly durable, low maintenance, easy to clean and carry a 7-year warranty. There's the additional benefit of being able to mix, match or contrast the **ALUMINIUM** framed door family with like-minded quality materials from polytec's **BENCH TOPS** & laminate, **THERMOLAMINATED** doors, **MELAMINE** doors and **EVOLUTION** range.

ALFRESCO door range

polytec's contemporary ALFRESCO door range is designed to transform an outdoor cooking and casual dining space into a functional, practical and legitimate additional room. In essence the same quality cabinetry and aesthetic from the neighbouring indoor kitchen can be seamlessly carried through to the outdoors – extending the liveability and usability of all available spaces. That's innovation.

Hardy and water resistant, 5mm/55mm ALUMINIUM frames can be selected in either sleek Satin Aluminium or Brushed Stainless finish to coordinate with stainless steel appliances and barbecues. The 5mm COMPACT laminate inserts are made from a high impact resistant and a waterproof material that will stay in great shape for many years.

The ALFRESCO door range from polytec, blurs the lines between: indoor and outdoor spaces; sophisticated design and affordable luxury. It also proposes an exciting new way of living.

GREEN

polytec is committed to an eco-friendly and sustainable environment. It is an intrinsic part of the way we do business daily. Our decisions are made so that they have minimum negative impact on the environment.

Our board product is manufactured from managed and renewable plantation pine and is Australian Forestry Standard chain of custody certified. All polytec board products are manufactured from E0 or E1 CUSTOMwood MDF.

We manage waste responsibly through numerous recycling programs including aluminium and metals, used oils and timber waste is recycled back into energy. We subscribe to local government environmental initiatives and voluntary audits as well as our own internal Energy and Carbon Management Policy (ECM), which aligns with the Australian Government's Energy Efficiency Opportunities (EEO) program.

polytec doors and bench tops are Australian Made & Owned.

CARE

polytec ALUMINIUM framed doors are manufactured from the highest quality materials and designed to provide years of trouble free service. Whilst your doors are made from the highest quality anodised aluminium extrusion, care should be taken to wipe up spills immediately.

polytec doors should be cleaned by wiping down with a white damp soft cloth and warm soapy water. For more stubborn stains use a mild household cleaning spray. Always ensure you refer to the recommendations provided by the manufacturer of the cleaning product before use.

By following these simple steps you should retain beautiful doors for many years to come.

OUTSIDE COVER: Doors in ALUMINIUM 5mm/55mm Brushed Stainless frame with Starphire White glass and RAVINE Drifted Oak.
Bench top in LAMINATE Grigio Marble Gloss.

INSIDE COVER: Doors in ALUMINIUM 42mm Satin Aluminium frame with Starphire White glass and THERMOLAMINATED 18mm Manchester Onyx Finline Gloss.
Bench top in LAMINATE Urban Slate Matt.

Visit www.polytec.com.au for specific care and cleaning information. Darker colours will show superficial wear and tear more readily than lighter coloured surfaces and require more care and maintenance.

The colours and details shown in this brochure are to the highest standards in printing. However, they should only be used as an indication of actual product colour. To order your free colour sample visit www.polytec.com.au. The use of our current colour samples gives the colour and finish that a customer would expect to receive. polytec does not guarantee exact colour matches across product ranges due to colour variation in each product group.
